

X.me

MODULAR SYSTEM

X.me si adatta agli ambienti, avvolgendoli:
è una libreria, una seduta, un tavolo, una
scrivania, un espositore. La X è un segno, un
simbolo, un significato

*X.me fits in any environment by wrapping them:
it is a bookcase, a seat, a table, a desk,
an exhibitor. The X is a sign, a symbol, a
meaning.*

Dai segni della famiglia Parapertusa di Favara, il designer Salvator-John A. Liotta (LAPS Architecture) ha codificato un pattern in cui la X è un elemento singolare che genera un sistema modulare. Da gesti semplici nasce la complessità.

From the signs of the Parapertusa family from Favara, the designer Salvator-John A. Liotta (LAPS Architecture) has codified a model in which the X is a singular element that generates a modular system. Complexity is born from simple gestures.

La struttura non gerarchica di X.me, autoportante e adattabile parametricamente al contesto, si pone in un dialogo sistemico con l'ambiente.

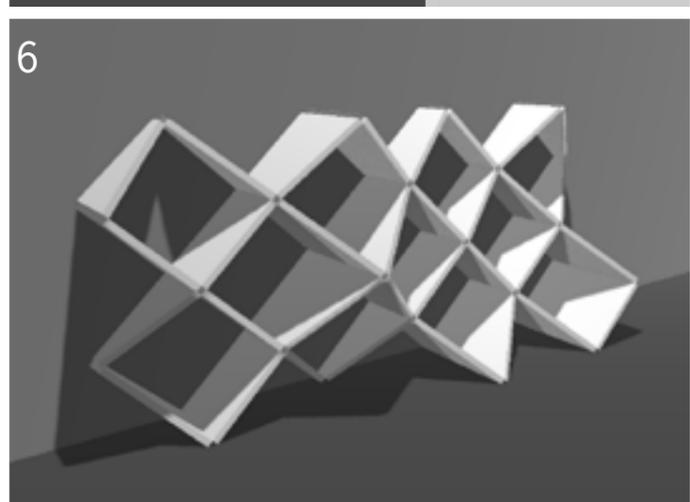

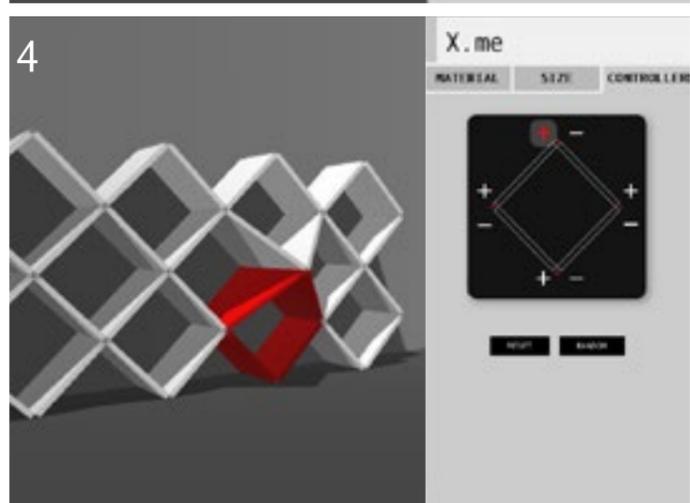

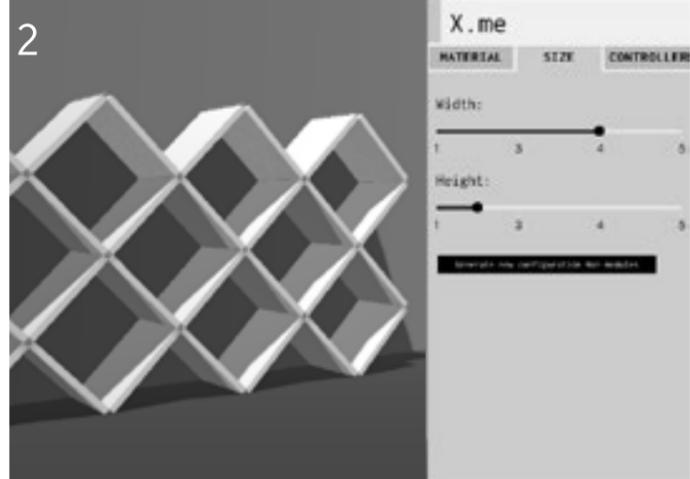

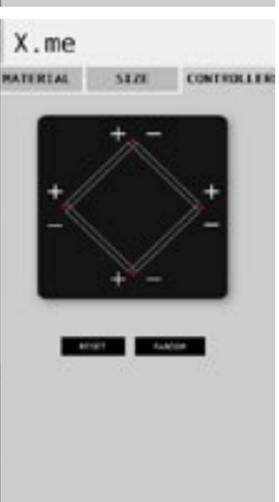

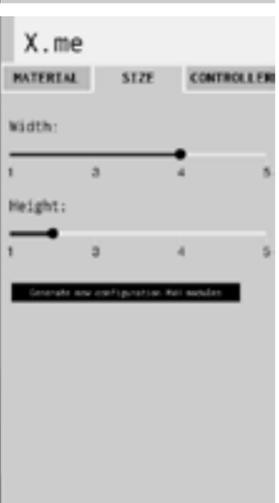

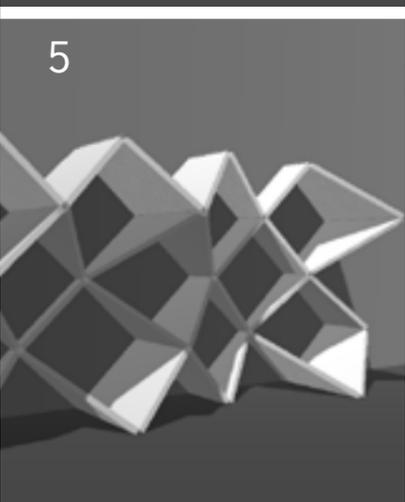

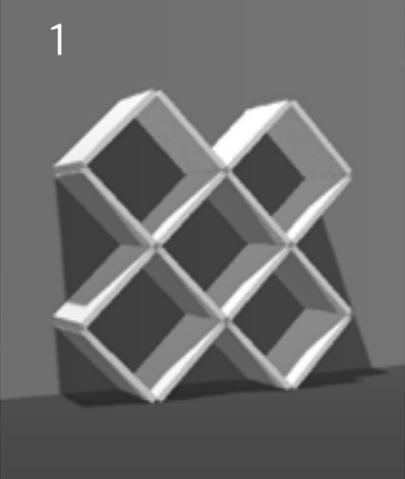

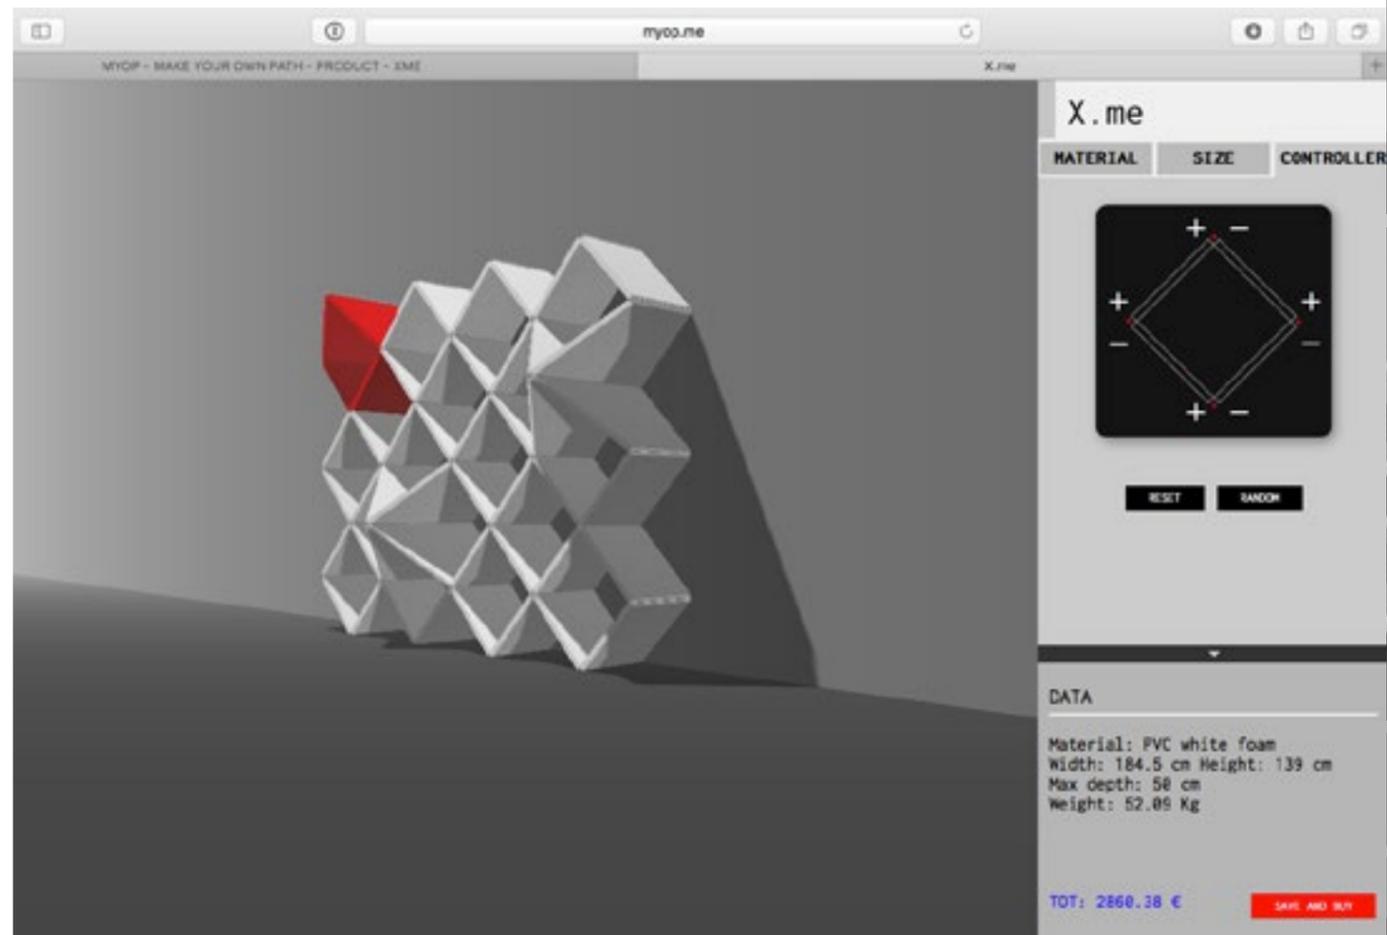

X.me's non-hierarchical structure, self-supporting and adaptable to the context, arises in a systemic way with the environment.

Le pareti degli spazi contenitivi, in PVC espanso, si uniscono grazie all'ausilio di un connettore di alluminio.

X.me è personalizzabile con l'ausilio di un software-configuratore. Le installazioni personalizzate prendono il nome dall'utente che le configura o dal luogo che l'accoglie. Schiacciarla, tirarla, deformarla ne cambia la struttura e la funzione, la pone in simbiosi con lo spazio.

The walls of X.me, in PVC foam, are joined thanks to the use of an aluminum connector.

X.me can be customized with the help of a software-configurator. Custom installations take the name of the user who configures it or the place that hosts it. Crush it, pull it, deform it. This changes its structure and function, placing it in symbiosis with space.

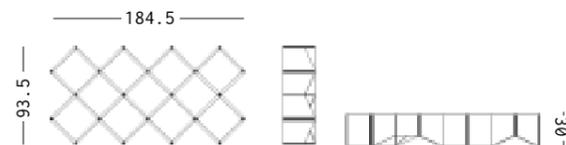

1. Scegli il materiale dei pannelli (legno o pvc espanso).
2. Scegli il numero di moduli (min. 1x1 - max. 5x5).
3. Seleziona il modulo che desideri configurare.
4. Varia le lunghezze dei giunti/vertice del modulo selezionato.
5. Con il tasto RANDOM genera personalizzazioni automatiche.
6. La tua X.me è pronta.

1. Choose the material of the panels (wood or pvc foam).
2. Choose the number of modules (min 1x1 - max 5x5).
3. Select the module you want to configure.
4. Vary the lengths of the joints / vertex of the selected module.
5. Use the RANDOM key to generate automatic customizations.
6. Your X.me is ready.
